

Radnor Capital Partners is pleased to announce that it will be working with Alumasc Group Plc.

Alumasc is a UK-based supplier of building products, helping to manage energy and water use. The company recently moved its listing onto the AIM market (LSE: ALU). Radnor will be working with Alumasc to engage a highly targeted investor audience, whilst advising on the key investor relations messages and presentation.

“We look forward to working closely with management at Alumasc, a company which has an exciting strategic plan in place, a desire to push-on and an attractive valuation to match.

We believe the compelling valuation provides an opportunity for some very targeted investor engagement. Having just re-listed on AIM, management is keen to engage with potential new investors, benefiting from our advice and execution across all aspects of their investor relations activity.

It has been an incredibly busy period for Radnor, with five new client wins over the last three months. The breadth of these, spanning the FTSE 250, Small-Cap and AIM and the range of engagements, from investor engagement, advisory & analytics to full investor relations outsource, is further evidence of the relevance of our unique model resonating with listed corporates.”

Joshua Cryer, Managing Partner
Radnor Capital Partners Ltd
