

Radnor Capital Partners is pleased to announce that it will be working with Euromoney Institutional Investor PLC.

Euromoney Institutional Investor PLC is a FTSE 250 listed business-to-business information services company. The company is a global business providing price discovery, essential market intelligence and events.

“We are delighted to be working with Euromoney as the business transitions into the next phase of its growth strategy. Pleasingly, this is an additional FTSE 250 client and a further example of our strong position in UK listed media.”

The Euromoney of the future will require careful explanation and positioning with investors. We have therefore joined the advisory roster at an exciting time in the company’s development and look forward to working with the management team.”

“Following the recent move to a fully independent FTSE 250 listing, we believe there is an opportunity to broaden the profile of Euromoney with investors.”

We have worked with the senior Radnor team before and believe they are the right team to help us target and engage a broader range of investors.”
