

Radnor welcomes Fleur Wood

Fleur brings over 25 years of experience in investor relations, communications and capital markets gained from her career within corporate broking teams at firms such as UBS, Hoare Govett, and Lehman Brothers. More recently she has also held senior in-house investor relations positions across the healthcare sector.

Fleur has joined Radnor from her own advisory firm and has deep experience in strategy, crisis management, executive leadership counsel, equity fund raisings, IPO, M&A transactions and integrations, particularly with companies' undergoing change and growth. Across her career she has worked with a broad range of sectors advising clients on all aspects of investor relations, corporate strategy and M&A.

We are delighted to welcome Fleur and believe her deep capital markets and IR expertise will further increase the skill of the expanding Radnor team.
